

machines

an Open Access Journal by MDPI

Design and Control of Advanced Mechatronics Systems, Volume II

Guest Editors:

Prof. Dr. Mingcong Deng

Prof. Dr. Takao Sato

Dr. Changan Jiang

Dr. Lin Meng

Deadline for manuscript
submissions:

31 May 2024

Message from the Guest Editors

The 12th International Conference on Advanced Mechatronic Systems (ICAMechS 2022, <https://web.tuat.ac.jp/~deng/ICAMechS2022/icamechs2022.html>) was held in Toyama, Japan, December 17–20, 2022. It served as an international forum for professionals, academics, and researchers to present the latest developments from interdisciplinary theoretical studies, computational algorithm development, and applications of mechatronic systems. We are now planning to publish a Special Issue with selected papers from the conference. In addition, we particularly welcome new submissions on emerging methodologies and techniques that bridge theoretical studies and applications in all mechatronic systems. Novel quantitative engineering and science study papers are also of interest. SI papers are thus being solicited on all relevant aspects of research and application.

Message from the Editor-in-Chief

Machines is an international, peer reviewed journal on machinery and engineering. It publishes research articles, reviews and communications.

Our aim is to encourage scientists to publish their experimental and theoretical results in as much detail as possible. There is no restriction on the length of the papers. Full experimental and/or methodical details must be provided.

There are, in addition, unique features of this journal: Manuscripts regarding research proposals and research ideas will be particularly welcomed; Electronic files or software regarding the full details of the calculation and experimental procedure - if unable to be published in a normal way can be deposited as supplementary material.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within *Scopus*, *SCIE (Web of Science)*, *Inspec*, and other databases.

Journal Rank: JCR - Q2 (*Engineering, Mechanical*)
