Wind Turbine Technologies

Guest Editors:

Dr. Davide Astolfi

Department of Information Engineering, University of Brescia, Via Branze 38, 25123 Brescia, Italy

Prof. Dr. Antonio J. Marques Cardoso

CISE - Electromechatronic Systems Research Centre, University of Beira Interior, Calçada Fonte do Lameiro, P-6201-001 Covilhã, Portugal

Deadline for manuscript submissions: **closed (12 June 2023)**

Message from the Guest Editors

The objective of this Special Issue is to collect contributions devoted to the general topic of wind turbine technologies. Therefore, the Special Issue has a wide scope, and, in accordance to the scientific purposes of the journal, the common ground is expected to be a focus on the machine. Theoretical and experimental contributions are both welcome.

Message from the Editor-in-Chief

Machines is an international, peer reviewed journal on machinery and engineering. It publishes research articles, reviews and communications.

Our aim is to encourage scientists to publish their experimental and theoretical results in as much detail as possible. There is no restriction on the length of the papers. Full experimental and/or methodical details must be provided.

There are, in addition, unique features of this journal: Manuscripts regarding research proposals and research ideas will be particularly welcomed; Electronic files or software regarding the full details of the calculation and experimental procedure - if unable to be published in a normal way can be deposited as supplementary material.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Inspec, and other databases.

Journal Rank: JCR - Q2 (Engineering, Mechanical) / CiteScore - Q1 (Control and Optimization)
