

Special Issue

Recent Advances in Industrial Control Systems

Message from the Guest Editor

Nowadays control systems are entering the new era of Industry 5.0, with digital and green transitions, as well as of the approaching Industry 6.0, supported by the intelligence. The abilities of humans and machines become integrated to gain the best possible outcome. In this context, control systems take on a new meaning. This Special Issue is dedicated to interdisciplinary research in the area of industrial control systems, especially connected, but not limited, to Industry 5.0 and Industry 6.0. It is calling for cutting-edge contributions to fundamental theoretical research as well as its application in the practice.

- control systems
- industrial systems
- industry 4.0
- intelligent control

About the Journal

Message from the Editor-in-Chief

Machines is an international, peer reviewed journal on machinery and engineering. It publishes research articles, reviews and communications. Our aim is to encourage scientists to publish their experimental and theoretical results in as much detail as possible. There is no restriction on the length of the papers. Full experimental and/or methodical details must be provided. There are, in addition, unique features of this journal: Manuscripts regarding research proposals and research ideas will be particularly welcomed; Electronic files or software regarding the full details of the calculation and experimental procedure - if unable to be published in a normal way can be deposited as supplementary material.

Editor-in-Chief

Prof. Dr. Antonio J. Marques Cardoso
CISE - Electromechatronic Systems Research Centre, University of
Beira Interior, Calçada Fonte do Lameiro, P-6201-001 Covilhã, Portugal

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), Inspec, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Mechanical) / CiteScore - Q1
(Control and Optimization)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.9 days after submission; acceptance to publication is undertaken in 2.4 days (median values for papers published in this journal in the first half of 2025).
