

Special Issue

Current Technologies for Rehabilitation and Assistive Engineering

Message from the Guest Editors

At present, there are several theoretical and practical challenges associated with rehabilitation and assistive engineering. The main goal of this Special Issue is to facilitate discussion and new contributions on this theme among researchers from different perspectives, helping them to understand each other's viewpoints. Topics of interest include, but are not limited to: assistive technology, rehabilitation, intelligent assistance devices, human-machine interaction, human behavior modeling, healthcare, biomedical devices and applications, and Society 5.0.

Guest Editors

Dr. Rui Azevedo Antunes

Dr. Daegeun Park

Prof. Dr. Jian S Dai

About the Journal

Message from the Editor-in-Chief

Machines is an international, peer reviewed journal on machinery and engineering. It publishes research articles, reviews and communications. Our aim is to encourage scientists to publish their experimental and theoretical results in as much detail as possible. There is no restriction on the length of the papers. Full experimental and/or methodical details must be provided. There are, in addition, unique features of this journal: Manuscripts regarding research proposals and research ideas will be particularly welcomed; Electronic files or software regarding the full details of the calculation and experimental procedure - if unable to be published in a normal way can be deposited as supplementary material.

Editor-in-Chief

Prof. Dr. Antonio J. Marques Cardoso
CISE - Electromechatronic Systems Research Centre, University of
Beira Interior, Calçada Fonte do Lameiro, P-6201-001 Covilhã, Portugal

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), Inspec, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Mechanical) / CiteScore - Q1
(Control and Optimization)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.9 days after submission; acceptance to publication is undertaken in 2.4 days (median values for papers published in this journal in the first half of 2025).
