

Special Issue

Selected Papers from the AHFE International Conference on Human Factors in Design, Engineering, and Computing

Message from the Guest Editors

The AHFE International Conference on Human Factors in Design, Engineering, and Computing is an international forum for the dissemination and exchange of scientific information on theoretical, generic, and applied areas of human factors and ergonomics. This will be accomplished through the following six modes of communication: keynote presentation, parallel sessions, demonstration and poster sessions, tutorials, exhibitions, and meetings of special interest groups. Suitable topics for this Special Issue include, but are not limited to, the following:

- Human-centered Design;
- Computation and Intelligent Design;
- Augmented, Virtual and Mixed Reality Simulation;
- Wearable Technologies, Social and Affective Computing;
- Human-computer Interaction;
- Training and Learning Sciences;
- Applications of Technologies in Healthcare and Medicine;
- Human Technology and Future of Work;
- Emerging Technologies and Business Applications;
- Artificial Intelligence and Social Computing;
- Application of Emerging Technologies;
- Applications for Interservice and Industry.

Guest Editors

About the Journal

Message from the Editor-in-Chief

Machines is an international, peer reviewed journal on machinery and engineering. It publishes research articles, reviews and communications.

Our aim is to encourage scientists to publish their experimental and theoretical results in as much detail as possible. There is no restriction on the length of the papers. Full experimental and/or methodical details must be provided.

There are, in addition, unique features of this journal: Manuscripts regarding research proposals and research ideas will be particularly welcomed; Electronic files or software regarding the full details of the calculation and experimental procedure - if unable to be published in a normal way can be deposited as supplementary material.

Editor-in-Chief

Prof. Dr. Antonio J. Marques Cardoso
CISE–Electromechatronic Systems Research Centre, University of
Beira Interior, Calçada Fonte do Lameiro, P-6201-001 Covilhã, Portugal

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), Inspec, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Mechanical) / CiteScore - Q1
(Control and Optimization)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.6 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the second half of 2025).
