

Special Issue

Intelligent Remanufacturing: Innovations, Technologies, and Sustainable Practices

Message from the Guest Editors

Intelligent remanufacturing is emerging as a crucial area for advancing sustainable practices in manufacturing industries. Integrating advanced technologies such as artificial intelligence, robotics, and machine learning into remanufacturing processes not only enhances efficiency but also promotes environmental sustainability. This Special Issue aims to bring together researchers to present their work on recent advances and innovative technologies in the field of intelligent remanufacturing. We welcome contributions that explore the intersection of cutting-edge technologies and remanufacturing to drive forward the agenda of sustainable manufacturing.

About the Journal

Message from the Editor-in-Chief

Machines is an international, peer reviewed journal on machinery and engineering. It publishes research articles, reviews and communications.

Our aim is to encourage scientists to publish their experimental and theoretical results in as much detail as possible. There is no restriction on the length of the papers. Full experimental and/or methodical details must be provided.

There are, in addition, unique features of this journal: Manuscripts regarding research proposals and research ideas will be particularly welcomed; Electronic files or software regarding the full details of the calculation and experimental procedure - if unable to be published in a normal way can be deposited as supplementary material.

Editor-in-Chief

Prof. Dr. Antonio J. Marques Cardoso
CISE–Electromechatronic Systems Research Centre, University of Beira Interior, Calçada Fonte do Lameiro, P-6201-001 Covilhã, Portugal

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), Inspec, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Mechanical) / CiteScore - Q1 (Control and Optimization)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.6 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the second half of 2025).
