

Special Issue

Selected Papers from Conference on Control, Mechatronics and Automation (ICCMA)

Message from the Guest Editor

2018 The 6th International Conference on Control, Mechatronics, and Automation (<http://www.iccma.org>) will be held in Tokyo, Japan on October 12–14, 2018. It is supported by the International Association of Computer Science & Information Technology. Bearing in mind the significance of mechanical control, intelligent mechatronics, and automation, in general, this Special Issue focuses on the recent development of various fields or cross-fields of related topics, and it represents a good opportunity for researchers around the world to disseminate different aspects of their work. Suitable topics include, but are not limited to, the following:

- intelligent mechatronics
- robotics
- biomimetics
- automation
- control systems
- manufacturing process

Guest Editor

Prof. Dr. Genci Capi

Human Assistive Robotics Lab, Department of Mechanical Engineering, Faculty of Science and Engineering, Hosei University, 3-7-2 Kajino-cho, Koganei-shi, Tokyo 184-8584, Japan

Deadline for manuscript submissions

closed (28 February 2019)

About the Journal

Message from the Editor-in-Chief

Machines is an international, peer reviewed journal on machinery and engineering. It publishes research articles, reviews and communications.

Our aim is to encourage scientists to publish their experimental and theoretical results in as much detail as possible. There is no restriction on the length of the papers. Full experimental and/or methodical details must be provided.

There are, in addition, unique features of this journal: Manuscripts regarding research proposals and research ideas will be particularly welcomed; Electronic files or software regarding the full details of the calculation and experimental procedure - if unable to be published in a normal way can be deposited as supplementary material.

Editor-in-Chief

Prof. Dr. Antonio J. Marques Cardoso
CISE–Electromechatronic Systems Research Centre, University of
Beira Interior, Calçada Fonte do Lameiro, P-6201-001 Covilhã, Portugal

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), Inspec, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Mechanical) / CiteScore - Q1
(Control and Optimization)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.6 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the second half of 2025).
