

# Special Issue

## Advanced and Efficient Electric Propulsion Systems

### Message from the Guest Editors

This Special Issue concentrates on the most recent technology and developments in the design and manufacturing processes of HEV and EV propulsion systems. The Special Issue's main goal is to provide a broad platform for reporting the scientific research observations on the following areas:

- Design with respect to EV and HEV driving cycles;
- High-power-density electric motors;
- Alternative batteries and energy storage systems for EVs and HEVs;
- Simulation approaches and techniques for propulsion system design and optimization;
- Propulsion system safety and reliability.

### Guest Editors

Dr. Amin Mahmoudi

College of Science and Engineering, Flinders University, Adelaide 5042, Australia

Dr. Solmaz Kahourzade

SREM, University of South Australia, Adelaide 5042, Australia

### Deadline for manuscript submissions

closed (15 November 2023)

## About the Journal

### Message from the Editor-in-Chief

*Machines* is an international, peer reviewed journal on machinery and engineering. It publishes research articles, reviews and communications. Our aim is to encourage scientists to publish their experimental and theoretical results in as much detail as possible. There is no restriction on the length of the papers. Full experimental and/or methodical details must be provided. There are, in addition, unique features of this journal: Manuscripts regarding research proposals and research ideas will be particularly welcomed; Electronic files or software regarding the full details of the calculation and experimental procedure - if unable to be published in a normal way can be deposited as supplementary material.

---

### Editor-in-Chief

Prof. Dr. Antonio J. Marques Cardoso  
CISE - Electromechatronic Systems Research Centre, University of  
Beira Interior, Calçada Fonte do Lameiro, P-6201-001 Covilhã, Portugal

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Inspec, and other databases.

#### Journal Rank:

JCR - Q2 (Engineering, Mechanical) / CiteScore - Q1  
(Control and Optimization)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.9 days after submission; acceptance to publication is undertaken in 2.4 days (median values for papers published in this journal in the first half of 2025).
