

Special Issue

Selected Papers from the 10th International Conference on Automation, Control and Robotics Engineering (CACRE 2025)

Message from the Guest Editor

The 2025 10th International Conference on Automation, Control and Robotics Engineering (CACRE 2025) will be held at Wuxi, China, from July 16 to 19, 2025 (<https://www.cacre.org/index.html>). The CACRE series of conferences have been successfully held for 9 years since 2016, attracting scholars and students from all over the world. The CACRE 2025 conference will provide a wonderful forum for you to update your knowledge base and explore the innovations in automation, control, and robotics engineering. This Special Issue will consider contributions from the conference CACRE 2025. Papers should fulfill the requirements at [Preprints and Conference Papers]

(<https://www.mdpi.com/journal/machines/instructions>).

The topics of this Special Issue include, but are not limited to, the following:

- Robotics science and engineering;
- Control science and engineering;
- Automation science and engineering;
- Vision science and engineering.

Guest Editor

Prof. Dr. Dan Zhang

Department of Mechanical Engineering, Faculty of Engineering, The Hong Kong Polytechnic University, Hong Kong, China

About the Journal

Message from the Editor-in-Chief

Machines is an international, peer reviewed journal on machinery and engineering. It publishes research articles, reviews and communications.

Our aim is to encourage scientists to publish their experimental and theoretical results in as much detail as possible. There is no restriction on the length of the papers. Full experimental and/or methodical details must be provided.

There are, in addition, unique features of this journal: Manuscripts regarding research proposals and research ideas will be particularly welcomed; Electronic files or software regarding the full details of the calculation and experimental procedure - if unable to be published in a normal way can be deposited as supplementary material.

Editor-in-Chief

Prof. Dr. Antonio J. Marques Cardoso
CISE–Electromechatronic Systems Research Centre, University of Beira Interior, Calçada Fonte do Lameiro, P-6201-001 Covilhã, Portugal

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), Inspec, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Mechanical) / CiteScore - Q1 (Control and Optimization)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.6 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the second half of 2025).
