

Special Issue

Design and Control of Advanced Mechatronics Systems, Volume II

Message from the Guest Editors

The 12th International Conference on Advanced Mechatronic Systems (ICAMEchS 2022, <https://web.tuat.ac.jp/~deng/ICAMEchS2022/icamechs2022.html>) was held in Toyama, Japan, December 17–20, 2022. It served as an international forum for professionals, academics, and researchers to present the latest developments from interdisciplinary theoretical studies, computational algorithm development, and applications of mechatronic systems. We are now planning to publish a Special Issue with selected papers from the conference. In addition, we particularly welcome new submissions on emerging methodologies and techniques that bridge theoretical studies and applications in all mechatronic systems. Novel quantitative engineering and science study papers are also of interest. SI papers are thus being solicited on all relevant aspects of research and application.

Guest Editors

Prof. Dr. Mingcong Deng

Prof. Dr. Takao Sato

Dr. Changan Jiang

Prof. Dr. Lin Meng

Deadline for manuscript submissions

closed (31 May 2024)

About the Journal

Message from the Editor-in-Chief

Machines is an international, peer reviewed journal on machinery and engineering. It publishes research articles, reviews and communications.

Our aim is to encourage scientists to publish their experimental and theoretical results in as much detail as possible. There is no restriction on the length of the papers. Full experimental and/or methodical details must be provided.

There are, in addition, unique features of this journal: Manuscripts regarding research proposals and research ideas will be particularly welcomed; Electronic files or software regarding the full details of the calculation and experimental procedure - if unable to be published in a normal way can be deposited as supplementary material.

Editor-in-Chief

Prof. Dr. Antonio J. Marques Cardoso
CISE–Electromechatronic Systems Research Centre, University of Beira Interior, Calçada Fonte do Lameiro, P-6201-001 Covilhã, Portugal

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), Inspec, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Mechanical) / CiteScore - Q1 (Control and Optimization)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.6 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the second half of 2025).
