

## Special Issue

# Condition Monitoring and Fault Diagnosis of Induction Motors

### Message from the Guest Editors

Topics of interest include but are not limited to the following:

- Predictive maintenance and real-time condition monitoring systems;
- On-line and remote location monitoring technologies;
- Non-invasive techniques for data acquisition;
- Robust methodologies for measurement, testing and diagnostics;
- Modern methods for signal processing;
- Enhanced pattern recognition algorithms;
- Failure mechanism analysis;
- Induction motors' remaining useful life prediction;
- Diagnostic approaches for all types of faults (i.e., mechanical, electrical, electromechanical, incipient, multiple simultaneous faults, etc.);
- Advanced artificial intelligence based fault diagnosis methods

### Guest Editors

Dr. Ioannis D. Chasiotis

Electrical Machines Laboratory, Department of Electrical & Computer Engineering, Democritus University of Thrace, University Campus, Kimmeria, GR-671 00 Xanthi, Greece

Prof. Dr. Yannis L. Karnavas

Electrical Machines Laboratory, Department of Electrical & Computer Engineering, Democritus University of Thrace, University Campus, GR-671 00 Xanthi, Greece

### Deadline for manuscript submissions

closed (30 April 2024)

## About the Journal

### Message from the Editor-in-Chief

*Machines* is an international, peer reviewed journal on machinery and engineering. It publishes research articles, reviews and communications. Our aim is to encourage scientists to publish their experimental and theoretical results in as much detail as possible. There is no restriction on the length of the papers. Full experimental and/or methodical details must be provided. There are, in addition, unique features of this journal: Manuscripts regarding research proposals and research ideas will be particularly welcomed; Electronic files or software regarding the full details of the calculation and experimental procedure - if unable to be published in a normal way can be deposited as supplementary material.

---

### Editor-in-Chief

Prof. Dr. Antonio J. Marques Cardoso  
CISE - Electromechatronic Systems Research Centre, University of  
Beira Interior, Calçada Fonte do Lameiro, P-6201-001 Covilhã, Portugal

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Inspec, and other databases.

#### Journal Rank:

JCR - Q2 (Engineering, Mechanical) / CiteScore - Q1  
(Control and Optimization)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.9 days after submission; acceptance to publication is undertaken in 2.4 days (median values for papers published in this journal in the first half of 2025).
