Editorial Board Members' Collection Series: Advances in Cellulose-Based Materials

Message from the Guest Editors

We are pleased to announce the Special Issue 'Editorial Board Members' Collection Series: Advances in Cellulose-Based Materials'. From a sustainable viewpoint, biobased and biodegradable cellulose-based materials are of great interest and importance in both academia and industrial fields. So far, both fundamental research and practical applications of cellulose-based materials have recently made great progress. It is necessary to report the recent progress in *Macromol* as a Special Issue. The topics include, but are not limited to, the preparation, modification, characterization, physical properties, and practical application of cellulose-based materials. We hope that this Special Issue will provide a unique platform for introducing the recent progress in this interesting and important field.

Guest Editors

Prof. Dr. John H.T. Luong

Innovative Chromatography Group, Irish Separation Science Cluster (ISSC), School of Chemistry, University College Cork, Cork, Ireland

Prof. Dr. Zhaobin Qiu

State Key Lab of Chemical Resource Engineering, Beijing University of Chemical Technology, Beijing 100029, China

Deadline for manuscript submissions

30 September 2025

About the Journal

Message from the Editor-in-Chief

Macromol is a new open access journal that welcomes innovative studies on different aspects of research relating to macromolecules, involving their chemistry, characterization, properties, and applications. It offers a good opportunity for the widespread and fast-paced sharing of knowledge with the scientific community. Short publication times are combined with a rigorous peer-review procedure. Both full papers and reviews are welcome. I am pleased to invite you to contribute to this journal in order to grow the journal to be an increasingly successful forum for high-quality research.

Editor-in-Chief

Prof. Dr. Maria Cristina Bonferoni
Department of Drug Sciences, University of Pavia, Viale Taramelli 12,
27100 Pavia, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within ESCI (Web of Science), Scopus, CAPus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Polymer Science) / CiteScore - Q1 (Materials Science (miscellaneous))
