

## Special Issue

# Research on the Magnetism of Heavy-Fermion Systems

### Message from the Guest Editors

The aim of this Special Issue is to collate world-leading research on the latest exciting theoretical and experimental results in the field of heavy-fermion systems. We hope to provide a platform to present emergent phenomena, discuss the underlying physics, and suggest future research directions. Research areas may include (but are not limited to) the following research fronts:

- heavy-fermion systems
- magnetism
- unconventional superconductivity
- strongly correlated electronic states
- quantum phase transition
- topological states

We look forward to receiving your contributions.

---

### Guest Editors

Dr. Junying Shen

The Institute of High Energy Physics of the Chinese Academy of Sciences, Dongguan 523777, China

Dr. Bing Shen

School of Physics, Sun Yat-sen University, Guangzhou 510275, China

## About the Journal

### Message from the Editor-in-Chief

New phenomena and technological applications of magnetism are fascinating topics. The *Magnetism* journal aims to establish an international forum where both basic and applied developments in this field can be shared, on a budget-level peer-review publishing platform with other experts and non-specialists. The journal is inviting contributions from authors who wish to share their original work in any field related within this area, including fundamental mechanisms, theoretical models, novel magnetic materials and devices, magnetic nanostructures, magnetic recording, biomagnetism, etc. The journal will facilitate the author's process of submission and the peerreview steps for a high-quality and timely publication in order to reach the widest audience.

---

### Editor-in-Chief

Dr. Gerardo F. Goya

Instituto de Nanociencia de Aragon (INA), University of Zaragoza, 50018 Zaragoza, Spain

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within ESCI (Web of Science), Scopus and other databases.

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 27.5 days after submission; acceptance to publication is undertaken in 4.8 days (median values for papers published in this journal in the second half of 2025).
