

Special Issue

Latest Advancements in Functional Magnetic Nanostructures

Message from the Guest Editor

We are pleased to announce this Special Issue which focuses on the latest achievements in the field of "functional magnetic nanostructures" and comprises experimental and theoretical works. We invite colleagues to submit original research papers that shed light on the mechanisms underlying the magnetic properties of nanostructures, showcase novel structures displaying unique phenomena, or demonstrate how engineered magnetic nanomaterials can address the challenges of our rapidly evolving world. Dr. Attila Lengyel

Guest Editor

Dr. Attila Lengyel

Institute for HUN-REN Wigner Research Centre for Physics, Wigner Research Centre for Physics, 1121 Budapest, Hungary

Deadline for manuscript submissions

closed (20 October 2023)

About the Journal

Message from the Editor-in-Chief

Editor-in-Chief

Prof. Dr. Carlos J. Gómez García

Department of Inorganic Chemistry, Faculty of Chemistry, University of Valencia, C/Dr. Moliner 50, 46100 Burjassot, Spain

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Chemistry, Inorganic and Nuclear) / CiteScore - Q2 (Electronic, Optical and Magnetic Materials)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16 days after submission; acceptance to publication is undertaken in 2.9 days (median values for papers published in this journal in the first half of 2025).
