

Special Issue

Nuclear Magnetic Resonance (NMR) in the Petroleum Industry and Porous Media

Message from the Guest Editor

This Special Issue aims to bring together the latest research results, technological breakthroughs, and forward-looking reviews from researchers and engineers worldwide on the application of NMR in the petroleum industry and related fields such as porous media. We sincerely invite submissions from experts and scholars from academia and industry to showcase how NMR technology is driving the petroleum industry and porous media towards greater precision, efficiency, and environmental friendliness, and to explore its future development trends and challenges.

Guest Editor

Dr. Xinmin Ge

About the Journal

Message from the Editor-in-Chief

Magnetochemistry constitutes a multidisciplinary field where chemists and physicists not only study magnetic properties but also design and synthesize chemical compounds with desired magnetic properties.

Magnetochemistry is inviting contributions in any field related with this area, such as theoretical models, crystal engineering, molecular magnetism, SMM, SIM, SCM, SCO, magnetic nanostructures, magnetic MOFs, magnetic recording, qubits, magneto-caloric materials, etc. Our goal is to share your contribution in a timely fashion and in a manner that will be valued by the scientific community.

Editor-in-Chief

Prof. Dr. Carlos J. Gómez García

Department of Inorganic Chemistry, Faculty of Chemistry, University of Valencia, C/Dr. Moliner 50, 46100 Burjassot, Spain

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), Inspec, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Chemistry, Inorganic and Nuclear) / CiteScore - Q2 (Electronic, Optical and Magnetic Materials)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.9 days after submission; acceptance to publication is undertaken in 3.5 days (median values for papers published in this journal in the second half of 2025).
