

Special Issue

Magnetic Resonance Applications and Advanced NMR & MRI Techniques

Message from the Guest Editors

This Special Issue will be focused on the newest knowledge in the area of Magnetochemistry and Magnetic Resonance. The main purpose of this Special Issue is to provide a wide forum specifically determined for publishing of the results obtained from the scientific research concerning:

- Research and development in magnetic resonance;
- Magnetic resonance and COVID 19 ;
- New materials and magnetic resonance;
- Environmental aspects of magnetochemistry
- NMR and MRI techniques in agriculture and food.

Guest Editors

Dr. Michal Puškár

Department of Design and Transport Engineering, Faculty of Mechanical Engineering, Technical University of Košice, Letná 1/9, 040 01 Košice, Slovakia

Prof. Dr. Seong Min Kim

Department of Bioindustrial Machinery Engineering, College of Agriculture and Life Sciences, Chonbuk National University, Jeonju 54896, Korea

Deadline for manuscript submissions

closed (31 July 2022)

About the Journal

Message from the Editor-in-Chief

Magnetoechemistry constitutes a multidisciplinary field where chemists and physicists not only study magnetic properties but also design and synthesize chemical compounds with desired magnetic properties.

Magnetoechemistry is inviting contributions in any field related with this area, such as theoretical models, crystal engineering, molecular magnetism, SMM, SIM, SCM, SCO, magnetic nanostructures, magnetic MOFs, magnetic recording, qubits, magneto-caloric materials, etc. Our goal is to share your contribution in a timely fashion and in a manner that will be valued by the scientific community.

Editor-in-Chief

Prof. Dr. Carlos J. Gómez García

Department of Inorganic Chemistry, Faculty of Chemistry, University of Valencia, C/Dr. Moliner 50, 46100 Burjassot, Spain

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), Inspec, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Chemistry, Inorganic and Nuclear) / CiteScore - Q2 (Electronic, Optical and Magnetic Materials)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16 days after submission; acceptance to publication is undertaken in 2.9 days (median values for papers published in this journal in the first half of 2025).
