

## Special Issue

# Materials and Devices with Magneto-Optical Properties for Communication and Sensing

### Message from the Guest Editors

The development of new kinds of sensors, such as bio-magnetoplasmonic sensors for biomedical applications, and nano-devices, such as magnetoresistive random access memory, requires increased light-magnetic-matter interaction at the nanoscale, which combines the concepts of plasmonics with magnetism. The objective of this Special Issue is to highlight recent advancements in magneto-plasmonics from the standpoint of magneto-plasmonics with photonic spin Hall effect. This Special Issue is expected to be of particular interest to both the general physical community and researchers working on magneto-photonics, plasmonics, magneto-plasmonics-based modulators, spin wave and magnonic applications, magnetic nanostructure spectroscopy, and magneto-optical Kerr effect magnetometry.

### Guest Editors

Dr. Yogendra Kumar Prajapati

Department of Electronics and Communication Engineering, Motilal Nehru National Institute of Technology, Allahabad 211004, India

Dr. Santosh Kumar

Shandong Key Laboratory of Optical Communication Science and Technology, School of Physics Science and Information Technology, Liaocheng University, Liaocheng, China

### Deadline for manuscript submissions

closed (20 June 2023)

## About the Journal

### Message from the Editor-in-Chief

---

#### Editor-in-Chief

Prof. Dr. Carlos J. Gómez García

Department of Inorganic Chemistry, Faculty of Chemistry, University of Valencia, C/Dr. Moliner 50, 46100 Burjassot, Spain

---

#### Author Benefits

##### High Visibility:

indexed within Scopus, SCIE (Web of Science), Inspec, CAPlus / SciFinder, and other databases.

##### Journal Rank:

JCR - Q2 (Chemistry, Inorganic and Nuclear) / CiteScore - Q2 (Electronic, Optical and Magnetic Materials)

##### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16 days after submission; acceptance to publication is undertaken in 2.9 days (median values for papers published in this journal in the first half of 2025).
