

## Special Issue

# Microstructure and Magnetic Properties of Ferromagnetic Nanomaterials

### Message from the Guest Editors

Magnetic nanomaterials have received plenty of attention because of their excellent suitability for a great variety of technological applications. The magnetic properties of nanoparticles (NPs) are often dominated by their size and shape, but also by the matrix and the agglomeration state; hence, it is important to possess the capability of controlling the size and morphology during the synthesis process. This Special Issue aims to provide a forum of exchange for researchers working in the field of magnetic nanostructured materials.

Particular interest will be devoted to the relationship between the microstructure and magnetic properties of ferromagnetic nanomaterials. **Topics to be covered include but are not limited to:**

- Iron-based magnetic nanomaterials;
- Mössbauer spectroscopy in magnetic nanomaterials;
- Magnetic characterization of binary and ternary magnetic nanomaterials;
- Structural and morphological characterization of magnetic nanomaterials;

### Guest Editors

Dr. Abderrahim Guittoun

Division of Physics, Nuclear Research Centre of Algiers, Algiers, Algeria

Prof. Dr. Pedro Gorria

Department of Physics & IUTA, University of Oviedo, E-33203 Gijón, Spain

### Deadline for manuscript submissions

closed (31 December 2021)

## About the Journal

### Message from the Editor-in-Chief

---

#### Editor-in-Chief

Prof. Dr. Carlos J. Gómez García

Department of Inorganic Chemistry, Faculty of Chemistry, University of Valencia, C/Dr. Moliner 50, 46100 Burjassot, Spain

---

#### Author Benefits

##### High Visibility:

indexed within Scopus, SCIE (Web of Science), Inspec, CAPlus / SciFinder, and other databases.

##### Journal Rank:

JCR - Q2 (Chemistry, Inorganic and Nuclear) / CiteScore - Q2 (Electronic, Optical and Magnetic Materials)

##### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16 days after submission; acceptance to publication is undertaken in 2.9 days (median values for papers published in this journal in the first half of 2025).
