

Special Issue

Magnetic Oxide Nanoparticles/Composites

Message from the Guest Editor

This Special Issue of the *Magnetochemistry* journal on “Magnetic Oxide Nanoparticles/Composites” provides an important forum for the disclosure and discussion of original contributions covering technologies for synthesis, characterization, and application of various nanostructured magnetic materials, including but not limited to magnetic oxides, magnetic nanoparticles, thin films, and composite materials. The connections between chemical, structural, and microstructural properties of the materials and magnetic properties are encouraged. The journal welcomes theoretical research, simulation, and experimental studies within the scope, in the form of reviews, original research articles, communications, and letters.

Guest Editor

Dr. Vesna Nikolic

Innovation Center of the Faculty of Technology and Metallurgy in Belgrade Ltd, University of Belgrade Karnegijeva 4, 11 120 Belgrade, Serbia

Deadline for manuscript submissions

closed (30 November 2022)

About the Journal

Message from the Editor-in-Chief

Editor-in-Chief

Prof. Dr. Carlos J. Gómez García

Department of Inorganic Chemistry, Faculty of Chemistry, University of Valencia, C/Dr. Moliner 50, 46100 Burjassot, Spain

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Chemistry, Inorganic and Nuclear) / CiteScore - Q2 (Electronic, Optical and Magnetic Materials)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16 days after submission; acceptance to publication is undertaken in 2.9 days (median values for papers published in this journal in the first half of 2025).
