

Special Issue

Selected Papers from ACM ICEA '21

Message from the Guest Editor

This Special Issue will mainly consist of extended papers selected from those presented at the 2021 ACM International Conference on Intelligent Computing and Its Emerging Applications (ICEA). Please visit the conference website for a detailed description: <https://icea-conf.github.io/2021/> At least 50% of each submission to this Special Issue should comprise new material, e.g., in the form of technical extensions, more in-depth evaluations, or additional use cases, as well as a change of title, abstract, and keywords. These extended submissions will undergo a peer-review process according to the journal's rules. At least two technical committees will act as reviewers for each extended article submitted to this Special Issue; if needed, additional external reviewers will be invited to guarantee a high-quality reviewing process.

Guest Editor

Prof. Dr. Jong-Hyoun Lee

Protocol Engineering Laboratory, Department of Computer and Information Security, Sejong University, Seoul 05006, Republic of Korea

Deadline for manuscript submissions

closed (20 April 2022)

About the Journal

Message from the Editor-in-Chief

Editor-in-Chief

Prof. Dr. Andreas Holzinger

1. Human-Centered AI Laboratory, Institute of Forest Engineering,
Department of Forest and Soil Sciences, University of Natural
Resources and Life Sciences, 1190 Vienna, Austria

2. xAI Laboratory, Alberta Machine Intelligence Institute, University of
Alberta, Edmonton, AB T5J 3B1, Canada

Author Benefits

High Visibility:

indexed within Scopus, ESCI (Web of Science), dblp, and
other databases.

Rapid Publication:

manuscripts are peer-reviewed and a first decision is
provided to authors approximately 25.5 days after
submission; acceptance to publication is undertaken in 3.4
days (median values for papers published in this journal in
the first half of 2025).

Journal Rank:

JCR - Q1 (Engineering, Electrical and Electronic) /
CiteScore - Q1 (Engineering (miscellaneous))
