Deadline for manuscript
submissions:

closed (31 January 2017)

Message from the Guest Editor

Dear Colleagues,

In the pursuit of new bioactive natural products, the demand to rapidly identify compounds present, in ever decreasing amounts, in complex crude extracts, has become a limiting factor. You are invited to contribute to this Special Issue, the focus of which is the implementation, development and future trends arising from the use of innovative strategies to discover new bioactive marine natural products.

Dr. Sylvia Urban

Message from the Editor-in-Chief

During the past few decades there has been an ever increasing number of novel compounds discovered in the marine environment. This is exemplified by the robust preclinical and clinical pipeline that currently exists for marine natural products. *Marine Drugs* is inviting contributions on new advances in marine biotechnology, pharmacology, chemical ecology, synthetic biology, and genomics approaches related to the discovery of therapeutically relevant marine natural products. Our goal is to share your contribution in a timely fashion and in a manner that will be valued by the scientific community.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [MEDLINE](#), [PMC](#), [Embase](#), [PubAg](#), [MarinLit](#), [AGRIS](#), and [other databases](#).

Journal Rank: JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1 (Pharmacology, Toxicology and Pharmaceutics (miscellaneous))
