Message from the Guest Editor

Dear Colleagues,

Exploring the biodiversity of the marine environment requires a variety of approaches to expedite the discovery of therapeutically important compounds. In this Special Issue of Marine Drugs, you are invited to submit articles that describe strategies that probe the chemical diversity to discover unprecedented bioactive marine natural products.

Message from the Editor-in-Chief

During the past few decades there has been an ever increasing number of novel compounds discovered in the marine environment. This is exemplified by the robust preclinical and clinical pipeline that currently exists for marine natural products. *Marine Drugs* is inviting contributions on new advances in marine biotechnology, pharmacology, chemical ecology, synthetic biology, and genomics approaches related to the discovery of therapeutically relevant marine natural products. Our goal is to share your contribution in a timely fashion and in a manner that will be valued by the scientific community.
