# Papers from the 12th European Conference of Marine Natural Products

### Message from the Guest Editor

The European Conference in Marine Natural Products is organised every 2 years to showcase recent advances in the broad field of marine natural products from marine chemical ecology to pharmacological applications. Exceptionally, in 2021, the 12th conference will be held virtually at NUI Galway in Ireland, and we invite you all to attend and submit your work in our Special Issue in the journal *Marine Drugs*. All information about the conference can be found at <https://ecmnp2021.squarespace.com/> On behalf of the organising and scientific committees,

## About the Journal

### Message from the Editor-in-Chief

During the past few decades there has been an ever increasing number of novel compounds discovered in the marine environment. This is exemplified by the robust preclinical and clinical pipeline that currently exists for marine natural products. *Marine Drugs* is inviting contributions on new advances in marine biotechnology, pharmacology, chemical ecology, synthetic biology, and genomics approaches related to the discovery of therapeutically relevant marine natural products. Our goal is to share your contribution in a timely fashion and in a manner that will be valued by the scientific community.
