

## Special Issue

# Marine Biomaterials for Dental Applications

### Message from the Guest Editors

Marine biomaterials are among the most promising and multifaceted developments in materials science today. Far-reaching discoveries and characterizations of the properties, behaviors, and functions of marine harvests and biostructures offer an exceptional perspective for the design and manufacture of materials and products that are at the same time environmentally friendly, nature-based, biomimetic, bioinspired, and functional for application in medical and oral healthcare. This Special Issue of *Marine Drugs* aims to provide an opportunity for materials scientists and dental clinical researchers to disseminate relevant basic and translational results in the science of marine biomimicry and biomaterials primarily pertaining to the field of dentistry.

### Guest Editors

Prof. Dr. Marcela R. Carrilho

College of Dental Medicine–Illinois, Northwestern University, Downers Grove, IL 60515, USA

Dr. Walter Antonio Bretz

TeraEarth, Huntington Beach, CA 90742, USA

### Deadline for manuscript submissions

30 November 2025

## About the Journal

### Message from the Editor-in-Chief

During the past few decades there has been an ever increasing number of novel compounds discovered in the marine environment. This is exemplified by the robust preclinical and clinical pipeline that currently exists for marine natural products. *Marine Drugs* is inviting contributions on new advances in marine biotechnology, pharmacology, chemical ecology, synthetic biology, and genomics approaches related to the discovery of therapeutically relevant marine natural products. Our goal is to share your contribution in a timely fashion and in a manner that will be valued by the scientific community.

---

### Editor-in-Chief

Prof. Dr. Bill J. Baker

Department of Chemistry, University of South Florida, 4202 E. Fowler Ave., CHE 205, Tampa, FL 33620-5250, USA

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, PubAg, MarinLit, AGRIS, and other databases.

#### Journal Rank:

JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1 (Pharmacology, Toxicology and Pharmaceutics (miscellaneous))
