

## Special Issue

# Tribute to Dr. Guido Cimino's 80th Birthday and His Outstanding Achievements on Marine Natural Products

### Message from the Guest Editors

On the occasion of Dr. Cimino's 80th birthday in April 2021, and are editing a Special Issue entitled "Tribute to Dr. Guido Cimino's 80th Birthday and His Outstanding Achievements in Marine Natural Products" to celebrate their former mentor. Contributions can take the form of original research or article reviews and cover every aspect of the chemistry of marine natural products, from the isolation and structural elucidation of new metabolites to biological activities and from technical developments, in particular in MS and NMR, to chemoecological issues, biosynthesis, and molecular studies. The issue is intended as a tribute to Dr. Cimino by colleagues, friends, and world experts in the chemistry of natural marine products. Contributions relating to the topics that Dr. Cimino dedicated his career to, including sponge metabolites, marine terpenes, mollusk chemistry, biosynthesis, and chemical ecology, are particularly welcome.

### Guest Editors

Prof. Dr. Angelo Fontana

Istituto di Chimica Biomolecolare del CNR, Via Campi Flegrei 34,  
80078, Pozzuoli, Napoli, Italy

Dr. Margherita Gavagnin

Consiglio Nazionale delle Ricerche, Institute of Biomolecular Chemistry,  
Rome, Italy

### Deadline for manuscript submissions

closed (30 June 2022)

## About the Journal

### Message from the Editor-in-Chief

During the past few decades there has been an ever increasing number of novel compounds discovered in the marine environment. This is exemplified by the robust preclinical and clinical pipeline that currently exists for marine natural products. *Marine Drugs* is inviting contributions on new advances in marine biotechnology, pharmacology, chemical ecology, synthetic biology, and genomics approaches related to the discovery of therapeutically relevant marine natural products. Our goal is to share your contribution in a timely fashion and in a manner that will be valued by the scientific community.

---

### Editor-in-Chief

Prof. Dr. Bill J. Baker

Department of Chemistry, University of South Florida, 4202 E. Fowler Ave., CHE 205, Tampa, FL 33620-5250, USA

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, PubAg, MarinLit, AGRIS, and other databases.

#### Journal Rank:

JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1 (Pharmacology, Toxicology and Pharmaceutics (miscellaneous))
