Message from the Guest Editors

The 1st International Conference on Sustainable Mega Infrastructures (SMI2018) and the 3rd International Conference on Sustainable Construction Materials: Design, Performance and Application (SCM2018) will be held in Donghu Hotel, Wuhan City, Hubei, China, on 10-11 August 2018. This conference will prepare diverse programs, including plenary/keynote sessions, oral/poster sessions, exhibitions, and social events. It will provide a unique opportunity to discuss the strategies and challenges related to the planning, execution and use of sustainable construction materials.

This Special Issue was proposed based on the productive abstract submissions. Participants at SMI2018 and SCM2018 are highly encouraged to submit papers in this Special Issue for possible publication in Materials. Authors who would not attend the SMI2018 and SCM2018 conference are also warmly invited to submit a paper for this Special Issue. The scope of this special issue will include, but is not limited to, cementitious paving materials, bituminous paving materials, recycled materials, waste materials, and so on.

an Open Access Journal by MDPI

Message from the Editor-in-Chief

Materials (ISSN 1996-1944) was launched in 2008. The journal covers twenty-five comprehensive topics: biomaterials, energy materials, advanced composites, advanced materials characterization, porous materials, manufacturing processes and systems, advanced nanomaterials and nanotechnology, smart materials, thin films and interfaces, catalytic materials, carbon materials, materials chemistry, materials physics, optics and photonics, corrosion, construction and building materials, materials simulation and design, electronic materials, advanced and functional ceramics and glasses, metals and alloys, soft matter, polymeric materials, quantum materials, mechanics of materials, green materials, general. *Materials* provides a unique opportunity to contribute high quality articles and to take advantage of its large readership.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Ei Compendex, CaPlus / SciFinder, Inspec, Astrophysics Data System, and other databases.

Journal Rank: JCR - Q1 (Metallurgy and Metallurgical Engineering) / CiteScore - Q2 (*Condensed Matter Physics*)
