III-Nitrides Semiconductor Research in the UK and Ireland

Guest Editors:

Prof. Dr. Kevin P. O'Donnell

SUPA Department of Physics,
University of Strathclyde,
Glasgow, UK

Prof. Dr. Robert W. Martin

Department of Physics, University
of Strathclyde, Glasgow, UK

Dr. Paul R. Edwards

Department of Physics, University
of Strathclyde, Glasgow, UK

Deadline for manuscript
submissions:

closed (6 July 2018)

Message from the Guest Editors

Dear Colleagues,

Since 1994, III-nitrides researchers in the UK and Ireland have shared their research results and expertise through the UK Nitrides Consortium (UKNC, <http://www.uknc.org/>). Now comprising about 200 workers spread over 23 academic and commercial centres of excellence, UKNC convenes formally twice a year at well-attended Summer and Winter Conferences. This Special Issue provides a snapshot of the most recent Winter Conference, held at the University of Manchester on 10–11 January, 2018, with selected contributions from the main players on a range of topics, including photonics and nanostructures, novel nitrides, materials characterisation, as well as electronic and optoelectronic devices and systems.

Message from the Editor-in-Chief

Materials (ISSN 1996-1944) was launched in 2008. The journal covers twenty-five comprehensive topics: biomaterials, energy materials, advanced composites, advanced materials characterization, porous materials, manufacturing processes and systems, advanced nanomaterials and nanotechnology, smart materials, thin films and interfaces, catalytic materials, carbon materials, materials chemistry, materials physics, optics and photonics, corrosion, construction and building materials, materials simulation and design, electronic materials, advanced and functional ceramics and glasses, metals and alloys, soft matter, polymeric materials, quantum materials, mechanics of materials, green materials, general. *Materials* provides a unique opportunity to contribute high quality articles and to take advantage of its large readership.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Ei Compendex, CaPlus / SciFinder, Inspec, Astrophysics Data System, and other databases.

Journal Rank: JCR - Q1 (Metallurgy and Metallurgical Engineering) / CiteScore - Q2 (*Condensed Matter Physics*)
