Message from the Guest Editors

Dear Colleagues,

The materials present a research challenge in chemical engineering, textile engineering, biotechnical, biomedical, medical, natural science and interdisciplinary fields of science. We would like that Croatian scientists present significant research potential in the development of materials, achievements in theoretical and experimental work and innovative and creative engineering approaches. Original papers, communications and reviews focused on new, sustainable, advanced and smart materials from macro to nano level, structures, surface modifications, mechanical properties, thermal properties, different characterization techniques, compatibility, technological solutions, and process improvements dedicated to progress in materials sciences are welcome.

We have the pleasure to motivate and invite you to submit a manuscript to the Special Issue “Collection of Papers in Materials Science from Croatia” for the journal Materials. Let us present research novelties in materials science; Let us increase the visibility of Croatian research potentials.

an Open Access Journal by MDPI

Message from the Editor-in-Chief

Materials (ISSN 1996-1944) was launched in 2008. The journal covers twenty-five comprehensive topics: biomaterials, energy materials, advanced composites, advanced materials characterization, porous materials, manufacturing processes and systems, advanced nanomaterials and nanotechnology, smart materials, thin films and interfaces, catalytic materials, carbon materials, materials chemistry, materials physics, optics and photonics, corrosion, construction and building materials, materials simulation and design, electronic materials, advanced and functional ceramics and glasses, metals and alloys, soft matter, polymeric materials, quantum materials, mechanics of materials, green materials, general. *Materials* provides a unique opportunity to contribute high quality articles and to take advantage of its large readership.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Ei Compendex, CaPlus / SciFinder, Inspec, Astrophysics Data System, and other databases.

Journal Rank: JCR - Q2 (*Metallurgy & Metallurgical Engineering*) / CiteScore - Q2 (*Condensed Matter Physics*)
