## Translational Research on Dental Materials

Guest Editor:

**Prof. Dr. Michael Gasik**

Department of Chemical and Metallurgical Engineering, School of Chemical Engineering, Aalto University Foundation, FIN-00076 Espoo, Finland

Deadline for manuscript submissions:  
**closed (15 January 2022)**

### Message from the Guest Editor

Dear Colleagues,

Despite the developments of materials for dental applications, there are still many challenges to be addressed. We think that dental biomaterials research needs to be brought closer to real conditions to interact closer with dental practice. Hence, we invite you to contribute to this Special Issue on “Translational Research in Dental Materials” aimed at highlighting the recent progress in dental biomaterials which have high relevance especially to unmet clinical needs.

We expect original papers on your research, development, and possibly clinical experience with various biomaterials (metals, ceramics, composites, polymers), addressing materials processing (also including additive or subtractive manufacturing and surface modification), properties, validation and testing, in silico design and optimization, in vitro and in vivo studies, as well as clinical experience and feedback. We anticipate your team has results and data which will be of a huge practical and scientific interest for the community and business in this challenging area.

Please feel free to contact me or the editor Ms. Judy Zhou [judy.zhou@mdpi.com](mailto:judy.zhou@mdpi.com) for extra information.

# Special Issue

an Open Access Journal by MDPI

## Editor-in-Chief

### Prof. Dr. Maryam Tabrizian

1. Department of Biomedical Engineering, Faculty of Medicine and Health Sciences, McGill University, Montreal, QC H3A 2B6, Canada

2. Faculty of Dentistry and Oral Health Sciences, McGill University, 3640 Rue University, Montreal, QC H3A 0C7, Canada

## Message from the Editor-in-Chief

*Materials* (ISSN 1996-1944) was launched in 2008. The journal covers twenty-five comprehensive topics: biomaterials, energy materials, advanced composites, advanced materials characterization, porous materials, manufacturing processes and systems, advanced nanomaterials and nanotechnology, smart materials, thin films and interfaces, catalytic materials, carbon materials, materials chemistry, materials physics, optics and photonics, corrosion, construction and building materials, materials simulation and design, electronic materials, advanced and functional ceramics and glasses, metals and alloys, soft matter, polymeric materials, quantum materials, mechanics of materials, green materials, general. *Materials* provides a unique opportunity to contribute high quality articles and to take advantage of its large readership.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Ei Compendex, CaPlus / SciFinder, Inspec, Astrophysics Data System, and other databases.

**Journal Rank:** JCR - Q2 (Metallurgy and Metallurgical Engineering) / CiteScore - Q1 (Condensed Matter Physics)
