Message from the Guest Editors

Dear Colleagues,

On behalf of the organizing committee, it is our great pleasure to invite you to Junior Euromat 2022 to be held in Coimbra, Portugal, from 19 to 22nd July 2022. In the aim of this conference dedicated to young researchers, a Special Issue will be published in MDPI's Open Access journal *Materials*. Your works presented at the conference can be submitted to this Special Issue of *Materials*. A rigorous peer reviewing process will be carried out before publication. Special publication rates will be offered to the conference participants (see <https://junioreuromat.org/> for further information). The general areas of the conference, which are also the representative ones for publication in this Special Issue, are: (i) Functional Materials (ii) Structural materials (iii) Processing technologies (iv) Characterization and Modelling (v) Materials for Sustainability

We sincerely hope that you will attend Junior Euromat 2022 and you will accept this invitation to publish your works in this Special Issue.

See you at Coimbra.

Materials (ISSN 1996-1944) was launched in 2008. The journal covers twenty-five comprehensive topics: biomaterials, energy materials, advanced composites, advanced materials characterization, porous materials, manufacturing processes and systems, advanced nanomaterials and nanotechnology, smart materials, thin films and interfaces, catalytic materials, carbon materials, materials chemistry, materials physics, optics and photonics, corrosion, construction and building materials, materials simulation and design, electronic materials, advanced and functional ceramics and glasses, metals and alloys, soft matter, polymeric materials, quantum materials, mechanics of materials, green materials, general. *Materials* provides a unique opportunity to contribute high quality articles and to take advantage of its large readership.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Ei Compendex, CaPlus / SciFinder, Inspec, Astrophysics Data System, and other databases.

Journal Rank: JCR - Q2 (*Metallurgy & Metallurgical Engineering*) / CiteScore - Q2 (*Condensed Matter Physics*)
