Deadline for manuscript  
submissions:

**closed (20 February 2023)**

### Message from the Guest Editor

Dear Colleagues,

Over the past decade, tremendous effort has been made in the field of alkali-activated materials and geopolymers to promote their large-scale adoption as construction materials, but also to widen their application range far beyond their use as Portland cement replacement. This Special Issue will collect the most recent advances on the synthesis, characterization, and applications envisioned for such eco-friendly materials.

It is my pleasure to invite you to submit a manuscript for this Special Issue focusing on the use of unconventional precursors and synthesis protocols, and covering different applications including construction materials, thermal and acoustic insulators, adsorbents, catalysts, and pH regulators, among others. This issue will provide a deeper knowledge regarding the properties of geopolymers and alkali-activated materials to foster the widespread use of this technology.

an Open Access Journal by MDPI

## Message from the Editor-in-Chief

*Materials* (ISSN 1996-1944) was launched in 2008. The journal covers twenty-five comprehensive topics: biomaterials, energy materials, advanced composites, advanced materials characterization, porous materials, manufacturing processes and systems, advanced nanomaterials and nanotechnology, smart materials, thin films and interfaces, catalytic materials, carbon materials, materials chemistry, materials physics, optics and photonics, corrosion, construction and building materials, materials simulation and design, electronic materials, advanced and functional ceramics and glasses, metals and alloys, soft matter, polymeric materials, quantum materials, mechanics of materials, green materials, general. *Materials* provides a unique opportunity to contribute high quality articles and to take advantage of its large readership.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Ei Compendex, CaPlus / SciFinder, Inspec, Astrophysics Data System, and other databases.

**Journal Rank:** JCR - Q2 (*Metallurgy & Metallurgical Engineering*) / CiteScore - Q2 (*Condensed Matter Physics*)
