Message from the Guest Editors

Dear Colleagues,

The International Symposium on Frontiers of Road and Airport Engineering (iFRAE) 2021 will be hosted on July 12–14, 2021, by Delft University of Technology, the Netherlands

The theme of the iFRAE 2021 is to promote research in the field of “Circular, Sustainable and Smart Airport and Highway Pavements” and is dedicated to the state-of-the-art and state-of-practice areas of long-life and circular materials for sustainable, cost-effective smart airport and highway pavement construction. This symposium will facilitate the exchange of new ideas in these fields among academicians, engineers, scientists, and practitioners.

The aim of this Special Issue of *Materials* is to provide researchers and practitioners a unique and rewarding opportunity to present and forward new and emerging ideas. Participants at the iFRAE 2021 are highly encouraged to submit papers in this Special Issue for possible publication in *Materials*. Those not attending iFRAE 2021 are also warmly invited to submit a paper to this Special Issue.
