Deadline for manuscript  
submissions:

**closed (31 October 2011)**

### Message from the Guest Editor

Dear Colleagues,

Ophthalmic drug delivery is fast becoming a very important area of research due to a continuous aging of the world population. There is an incredible range of drug types in terms of both physical properties and sizes which need to be delivered for treating diseases both in the anterior and the posterior segments of the eye. This presents materials researchers with unique opportunities to develop new approaches, devices, materials for targeted and controlled delivery of drugs to various ophthalmic tissues. We invite papers focusing directly on ophthalmic applications as well as papers that focus on approaches or materials that are currently utilized in other parts of the body, but could be adapted for ocular applications.

Dr. Anuj Chauhan

## Editor-in-Chief

### Prof. Dr. Maryam Tabrizian

1. Department of Biomedical Engineering, Faculty of Medicine and Health Sciences, McGill University, Montreal, QC H3A 2B6, Canada

2. Faculty of Dentistry and Oral Health Sciences, McGill University, 3640 Rue University, Montreal, QC H3A 0C7, Canada

## Message from the Editor-in-Chief

*Materials* (ISSN 1996-1944) was launched in 2008. The journal covers twenty-five comprehensive topics: biomaterials, energy materials, advanced composites, advanced materials characterization, porous materials, manufacturing processes and systems, advanced nanomaterials and nanotechnology, smart materials, thin films and interfaces, catalytic materials, carbon materials, materials chemistry, materials physics, optics and photonics, corrosion, construction and building materials, materials simulation and design, electronic materials, advanced and functional ceramics and glasses, metals and alloys, soft matter, polymeric materials, quantum materials, mechanics of materials, green materials, general. *Materials* provides a unique opportunity to contribute high quality articles and to take advantage of its large readership.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Ei Compendex, CaPlus / SciFinder, Inspec, Astrophysics Data System, and other databases.

**Journal Rank:** JCR - Q1 (Metallurgy and Metallurgical Engineering) / CiteScore - Q2 (*Condensed Matter Physics*)
