

## Special Issue

# Properties and Applications of Advanced Textile Materials

### Message from the Guest Editor

With the progress of technology and people's continuous pursuit of life quality, advanced textile materials are paid more and more attention and their development opens more possibilities for the production and application of textiles. Functional textile materials have special functions achieved by adding some special chemical substances, such as waterproofing, anti fouling, antibacterial, etc., and are used in outdoor sports, as well as medical and health fields. Intelligent textile materials refer to the addition of intelligent components to textiles for use in fields such as smart homes and smart health. Environmentally friendly textile materials are composed of organic cotton, bamboo fibers, etc., which can effectively reduce environmental pollution. Therefore, this Special Issue focuses on the preparation and development, functional modification, performance characterization, and application exploration of advanced textile materials or textiles.

### Guest Editor

Dr. Fujuan Liu

College of Textile and Clothing Engineering, Soochow University,  
Suzhou 215123, China

### Deadline for manuscript submissions

closed (20 April 2025)

## About the Journal

### Message from the Editor-in-Chief

*Materials* (ISSN 1996-1944) was launched in 2008. The journal covers twenty-five comprehensive topics: biomaterials, energy materials, advanced composites, advanced materials characterization, porous materials, manufacturing processes and systems, advanced nanomaterials and nanotechnology, smart materials, thin films and interfaces, catalytic materials, carbon materials, materials chemistry, materials physics, optics and photonics, corrosion, construction and building materials, materials simulation and design, electronic materials, advanced and functional ceramics and glasses, metals and alloys, soft matter, polymeric materials, quantum materials, mechanics of materials, green materials, general. *Materials* provides a unique opportunity to contribute high quality articles and to take advantage of its large readership.

### Editor-in-Chief

Prof. Dr. Maryam Tabrizian

1. Department of Biomedical Engineering, Faculty of Medicine and Health Sciences, McGill University, Montreal, QC H3A 2B6, Canada
2. Faculty of Dentistry and Oral Health Sciences, McGill University, 3640 Rue University, Montreal, QC H3A 0C7, Canada

---

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Ei Compendex, CaPlus / SciFinder, Inspec, Astrophysics Data System, and other databases.

#### Journal Rank:

JCR - Q2 (Metallurgy and Metallurgical Engineering) /  
CiteScore - Q1 (Condensed Matter Physics)
