

## Special Issue

# Advanced Materials for Dental Prosthesis: Current Advances and Future Trends

### Message from the Guest Editor

The aim of the present Special Issue is strongly related to the spread of new technologies in the dental field. In particular, the digital workflow is reporting encouraging results and protocols to be applied in the everyday clinical activity. Such new digital devices can make dental procedures safer and faster, leading to excellent clinical results at long-term follow-up. The Special Issue is dedicated to all manuscripts regarding in vitro and in vivo research about these technologies, with an impact on the rehabilitations of patients, including implant-supported prostheses, digital workflow, innovative imaging techniques, oral hygiene supporting rehabilitation maintenance, CAD-CAM applications, and intraoral scanning. Moreover, papers about the management of patients with systemic diseases, elderly ones, and other rare conditions are accepted, in particular, if realized through innovative technologies or mini-invasive protocols. Dr. Paolo Cappare

### Guest Editor

Dr. Paolo Cappare

Department of Dentistry, Vita-Salute San Raffaele University, Milan, Italy  
IRCCS San Raffaele Hospital, Milan, Italy

### Deadline for manuscript submissions

closed (10 March 2024)

## About the Journal

### Message from the Editor-in-Chief

*Materials* (ISSN 1996-1944) was launched in 2008. The journal covers twenty-five comprehensive topics: biomaterials, energy materials, advanced composites, advanced materials characterization, porous materials, manufacturing processes and systems, advanced nanomaterials and nanotechnology, smart materials, thin films and interfaces, catalytic materials, carbon materials, materials chemistry, materials physics, optics and photonics, corrosion, construction and building materials, materials simulation and design, electronic materials, advanced and functional ceramics and glasses, metals and alloys, soft matter, polymeric materials, quantum materials, mechanics of materials, green materials, general. *Materials* provides a unique opportunity to contribute high quality articles and to take advantage of its large readership.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Ei Compendex, CaPlus / SciFinder, Inspec, Astrophysics Data System, and other databases.

#### Journal Rank:

JCR - Q2 (Metallurgy and Metallurgical Engineering) /  
CiteScore - Q1 (Condensed Matter Physics)
