

Special Issue

Green & Intelligent Printing or Packaging Materials in Light Industry

Message from the Guest Editors

In this Special Issue, we aim to present a contemporary overview of recent developments in the fields of green printing, printed electronics and intelligent packaging. Reviews, full papers and short communications covering current trends in the expansion of polymeric material applications are all welcome. The scope of this issue includes, but is not limited to, the following topics:

- Green preparation of environmentally friendly materials in printing and packaging;
- Recycling of waste packaging materials, such as plastic, metal, paper, etc.;
- Functional materials, including electric, optical, thermal resistance, magnetic, hydrophobic materials, etc.;
- The green fabrication technologies for preparation of smart devices;
- Reusing natural materials, such as lignin, cellulose, protein, etc.;
- Calculation and simulation technologies for material and device preparation.

About the Journal

Message from the Editorial Board

Materials (ISSN 1996-1944) was launched in 2008. The journal covers twenty-five comprehensive topics: biomaterials, energy materials, advanced composites, advanced materials characterization, porous materials, manufacturing processes and systems, advanced nanomaterials and nanotechnology, smart materials, thin films and interfaces, catalytic materials, carbon materials, materials chemistry, materials physics, optics and photonics, corrosion, construction and building materials, materials simulation and design, electronic materials, advanced and functional ceramics and glasses, metals and alloys, soft matter, polymeric materials, quantum materials, mechanics of materials, green materials, general. *Materials* provides a unique opportunity to contribute high quality articles and to take advantage of its large readership.

Editors-in-Chief

Prof. Dr. Maryam Tabrizian

1. Department of Biomedical Engineering, Faculty of Medicine and Health Sciences, McGill University, Montreal, QC H3A 2B6, Canada
2. Faculty of Dentistry and Oral Health Sciences, McGill University, 3640 Rue University, Montreal, QC H3A 0C7, Canada

Prof. Dr. Yuguang Ma

State Key Laboratory of Luminescent Materials and Devices, South China University of Technology, Guangzhou 510640, China

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Ei Compendex, CaPlus / SciFinder, Inspec, Astrophysics Data System, and other databases.

Journal Rank:

JCR - Q2 (Metallurgy and Metallurgical Engineering) /
CiteScore - Q1 (Condensed Matter Physics)
