

## Special Issue

# Advanced Sustainable Cement-Based Materials

### Message from the Guest Editors

This Special Issue seeks to bring together papers that explore new cements and binders with lower environmental impact, the development and characterisation of geopolymers, alkali-activated materials, and low-clinker cements, the use of supplementary cementitious materials from waste, and the utilization of waste as a substitute for conventional raw materials in cement-based materials. Research on durability, mix optimisation, CO<sub>2</sub> capture and utilisation, circular economy, performance models, and life cycle analysis will also be considered. This Special Issue is geared toward researchers, engineers, construction professionals, and sustainability experts who wish to contribute rigorous knowledge and practical solutions for advancement towards more efficient and responsible construction. We cordially invite the scientific community to submit their contributions and participate in this space for exchange and technological advancement.

### Guest Editors

Prof. Dr. Francisco Agrela  
Dr. Julia Rosales  
Dr. José Luis Díaz-López

### Deadline for manuscript submissions

20 October 2026

## About the Journal

### Message from the Editorial Board

*Materials* (ISSN 1996-1944) was launched in 2008. The journal covers twenty-five comprehensive topics: biomaterials, energy materials, advanced composites, advanced materials characterization, porous materials, manufacturing processes and systems, advanced nanomaterials and nanotechnology, smart materials, thin films and interfaces, catalytic materials, carbon materials, materials chemistry, materials physics, optics and photonics, corrosion, construction and building materials, materials simulation and design, electronic materials, advanced and functional ceramics and glasses, metals and alloys, soft matter, polymeric materials, quantum materials, mechanics of materials, green materials, general. *Materials* provides a unique opportunity to contribute high quality articles and to take advantage of its large readership.

### Editors-in-Chief

Prof. Dr. Maryam Tabrizian

1. Department of Biomedical Engineering, Faculty of Medicine and Health Sciences, McGill University, Montreal, QC H3A 2B6, Canada
2. Faculty of Dentistry and Oral Health Sciences, McGill University, 3640 Rue University, Montreal, QC H3A 0C7, Canada

Prof. Dr. Yuguang Ma

State Key Laboratory of Luminescent Materials and Devices, South China University of Technology, Guangzhou 510640, China

---

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Ei Compendex, CaPlus / SciFinder, Inspec, Astrophysics Data System, and other databases.

#### Journal Rank:

JCR - Q2 (Metallurgy and Metallurgical Engineering) /  
CiteScore - Q1 (Condensed Matter Physics)
