

## Special Issue

# Advanced Materials for Clothing and Textile Engineering—2nd Edition

### Message from the Guest Editors

Following the success of our first Special Issue "Advanced Materials for Clothing and Textile Engineering", we decided to produce a second one to publish the latest research in the field of clothing and textile engineering. This second Special Issue, similar to the first, covers a wide range of topics, including (but not limited to) advanced materials for clothing and their properties, the design and computer construction of clothing, the process parameters of textile and clothing manufacturing, textile and clothing production, the principles and applications of joining techniques of clothing using thermal conduction and convection, ultrasonic and high-frequency techniques, wearable computers, conventional and protective clothing, smart textiles and clothing, textile and clothing engineering, and testing and measuring methods in textile and clothing engineering. We look forward to receiving contributions from your research and knowledge on these new modern topics, as a multidisciplinary approach to these topics is important.

### Guest Editors

Prof. Dr. Snježana Firšt Rogale

Department of Clothing Technology, Faculty of Textile Technology,  
University of Zagreb, 10000 Zagreb, Croatia

Prof. Dr. Dubravko Rogale

Department of Clothing Technology, Faculty of Textile Technology,  
University of Zagreb, Zagreb, Croatia

### Deadline for manuscript submissions

closed (20 October 2024)

## About the Journal

### Message from the Editor-in-Chief

*Materials* (ISSN 1996-1944) was launched in 2008. The journal covers twenty-five comprehensive topics: biomaterials, energy materials, advanced composites, advanced materials characterization, porous materials, manufacturing processes and systems, advanced nanomaterials and nanotechnology, smart materials, thin films and interfaces, catalytic materials, carbon materials, materials chemistry, materials physics, optics and photonics, corrosion, construction and building materials, materials simulation and design, electronic materials, advanced and functional ceramics and glasses, metals and alloys, soft matter, polymeric materials, quantum materials, mechanics of materials, green materials, general. *Materials* provides a unique opportunity to contribute high quality articles and to take advantage of its large readership.

### Editor-in-Chief

Prof. Dr. Maryam Tabrizian

1. Department of Biomedical Engineering, Faculty of Medicine and Health Sciences, McGill University, Montreal, QC H3A 2B6, Canada
2. Faculty of Dentistry and Oral Health Sciences, McGill University, 3640 Rue University, Montreal, QC H3A 0C7, Canada

---

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Ei Compendex, CaPlus / SciFinder, Inspec, Astrophysics Data System, and other databases.

#### Journal Rank:

JCR - Q2 (Metallurgy and Metallurgical Engineering) /  
CiteScore - Q1 (Condensed Matter Physics)
