

## Special Issue

# Innovative Materials in Biomechanical and Industrial Applications

### Message from the Guest Editors

The focus of this Special Issue of *Materials* is the computational modeling of innovative materials and the experimental investigation of their behavior. This Special Issue will also present recent advances in this field. Potential topics include but are not limited to:

- New models of the damage mechanics of composite structures;
- Improvement of durability of structures by nanomaterials;
- Novel approaches to the evaluation of statistical and dynamical failure of nano-, composite, or hybrid structures;
- New approaches to the evaluation of the reliability over time of composite structures;
- Novel experimental setups for biomechanical problems;
- Constitutive models of biomedical materials;
- New methods for optimizing the design of composite materials.

---

### Guest Editors

Dr. Michele Perrella

Dr. Valentino Paolo Berardi

Prof. Dr. Enrico Armentani

---

### Deadline for manuscript submissions

closed (30 November 2023)

## About the Journal

### Message from the Editor-in-Chief

*Materials* (ISSN 1996-1944) was launched in 2008. The journal covers twenty-five comprehensive topics: biomaterials, energy materials, advanced composites, advanced materials characterization, porous materials, manufacturing processes and systems, advanced nanomaterials and nanotechnology, smart materials, thin films and interfaces, catalytic materials, carbon materials, materials chemistry, materials physics, optics and photonics, corrosion, construction and building materials, materials simulation and design, electronic materials, advanced and functional ceramics and glasses, metals and alloys, soft matter, polymeric materials, quantum materials, mechanics of materials, green materials, general. *Materials* provides a unique opportunity to contribute high quality articles and to take advantage of its large readership.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Ei Compendex, CaPlus / SciFinder, Inspec, Astrophysics Data System, and other databases.

#### Journal Rank:

JCR - Q2 (Metallurgy and Metallurgical Engineering) /  
CiteScore - Q1 (Condensed Matter Physics)
