

Special Issue

Advances in Solid State and Materials Chemistry

Message from the Guest Editor

In this Special Issue of the journal *Materials* entitled Advances in Solid State and Materials Chemistry, we will provide the opportunity to explain the connection between the structure, microstructure, and final properties of a wide range of materials, including crystalline, amorphous, organic, and nanomaterials, through various scientific articles. Key to the scientific discussion will be the presentation of synthesis methods and the methods and types of characterisation of such materials, with a focus on priorities and innovations. Knowledge of the potential technological applications of such materials will also be included in this Special Issue. It is also oriented towards studies of chemical, structural, thermodynamic, electronic, magnetic, and optical properties and processes in solids so that readers will be able to gain a deeper insight into the behaviour of solid materials.

Guest Editor

Dr. Rebeka Rudolf

About the Journal

Message from the Editor-in-Chief

Materials (ISSN 1996-1944) was launched in 2008. The journal covers twenty-five comprehensive topics: biomaterials, energy materials, advanced composites, advanced materials characterization, porous materials, manufacturing processes and systems, advanced nanomaterials and nanotechnology, smart materials, thin films and interfaces, catalytic materials, carbon materials, materials chemistry, materials physics, optics and photonics, corrosion, construction and building materials, materials simulation and design, electronic materials, advanced and functional ceramics and glasses, metals and alloys, soft matter, polymeric materials, quantum materials, mechanics of materials, green materials, general. *Materials* provides a unique opportunity to contribute high quality articles and to take advantage of its large readership.

Editor-in-Chief

Prof. Dr. Maryam Tabrizian

1. Department of Biomedical Engineering, Faculty of Medicine and Health Sciences, McGill University, Montreal, QC H3A 2B6, Canada
2. Faculty of Dentistry and Oral Health Sciences, McGill University, 3640 Rue University, Montreal, QC H3A 0C7, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Ei Compendex, CaPlus / SciFinder, Inspec, Astrophysics Data System, and other databases.

Journal Rank:

JCR - Q2 (Metallurgy and Metallurgical Engineering) /
CiteScore - Q1 (Condensed Matter Physics)
