

Special Issue

Exploring Novel Biomaterials and Digital Techniques for Restorative and Adhesive Dentistry

Message from the Guest Editors

Nowadays, nanoscience and nanotechnology have become particularly important technologies in dentistry. Indeed, following a minimally invasive approach, new biomaterials with optimal chemo-mechanical characteristics and innovative digital techniques enable simplification and improvement of the quality of procedures, resulting in predictable and satisfactory results for both the dentist and the patient. Therefore, this Special Issue will focus on new biomaterials and digital techniques in restorative dentistry and endodontics and their capability to improve dental health. We welcome submissions of original research articles, reviews, and new dental techniques.

Guest Editors

Dr. Vincenzo Tosco

Department of Clinical Sciences and Stomatology (DISCO), Università Politecnica delle Marche, 60126 Ancona, Italy

Dr. Francesco Puleio

Department of Biomedical and Dental Sciences and Morphofunctional Imaging, Messina University, 98100 Messina, Italy

Deadline for manuscript submissions

20 February 2026

About the Journal

Message from the Editor-in-Chief

Materials (ISSN 1996-1944) was launched in 2008. The journal covers twenty-five comprehensive topics: biomaterials, energy materials, advanced composites, advanced materials characterization, porous materials, manufacturing processes and systems, advanced nanomaterials and nanotechnology, smart materials, thin films and interfaces, catalytic materials, carbon materials, materials chemistry, materials physics, optics and photonics, corrosion, construction and building materials, materials simulation and design, electronic materials, advanced and functional ceramics and glasses, metals and alloys, soft matter, polymeric materials, quantum materials, mechanics of materials, green materials, general. *Materials* provides a unique opportunity to contribute high quality articles and to take advantage of its large readership.

Editor-in-Chief

Prof. Dr. Maryam Tabrizian

1. Department of Biomedical Engineering, Faculty of Medicine and Health Sciences, McGill University, Montreal, QC H3A 2B6, Canada
2. Faculty of Dentistry and Oral Health Sciences, McGill University, 3640 Rue University, Montreal, QC H3A 0C7, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Ei Compendex, CaPlus / SciFinder, Inspec, Astrophysics Data System, and other databases.

Journal Rank:

JCR - Q2 (Metallurgy and Metallurgical Engineering) /
CiteScore - Q1 (Condensed Matter Physics)
