

Special Issue

Testing of Materials and Elements in Civil Engineering (4th Edition)

Message from the Guest Editor

In recent years, we have organized three editions of the Special Issue “[Testing of Materials and Elements in Civil Engineering](#)”, with more than 130 innovative papers published. The field of materials testing in civil engineering has a large and varied scope from engineering and scientific perspectives. Therefore, we have decided to assemble a fourth edition dedicated to this topic. This new Special Issue is proposed and organized as a means to present recent developments in the field of materials testing in civil engineering. The development potential of construction has been enormous in recent years. It is expected that, in the future, the materials used in the construction industry will be more durable. The articles highlighted in this Special Issue will relate to various aspects of testing different materials in civil engineering, from building materials and elements to building structures. We invite you to submit a manuscript for this Special Issue, mainly focused on novel testing approaches, developing single and hybrid measurement techniques, and advanced signal analysis.

Guest Editor

Prof. Dr. Krzysztof Schabowicz
Faculty of Civil Engineering, Wrocław University of Science and Technology, Wybrzeże Wyspiańskiego 27, 50-370 Wrocław, Poland

About the Journal

Message from the Editorial Board

Materials (ISSN 1996-1944) was launched in 2008. The journal covers twenty-five comprehensive topics: biomaterials, energy materials, advanced composites, advanced materials characterization, porous materials, manufacturing processes and systems, advanced nanomaterials and nanotechnology, smart materials, thin films and interfaces, catalytic materials, carbon materials, materials chemistry, materials physics, optics and photonics, corrosion, construction and building materials, materials simulation and design, electronic materials, advanced and functional ceramics and glasses, metals and alloys, soft matter, polymeric materials, quantum materials, mechanics of materials, green materials, general. *Materials* provides a unique opportunity to contribute high quality articles and to take advantage of its large readership.

Editors-in-Chief

Prof. Dr. Maryam Tabrizian

1. Department of Biomedical Engineering, Faculty of Medicine and Health Sciences, McGill University, Montreal, QC H3A 2B6, Canada
2. Faculty of Dentistry and Oral Health Sciences, McGill University, 3640 Rue University, Montreal, QC H3A 0C7, Canada

Prof. Dr. Yuguang Ma

State Key Laboratory of Luminescent Materials and Devices, South China University of Technology, Guangzhou 510640, China

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Ei Compendex, CaPlus / SciFinder, Inspec, Astrophysics Data System, and other databases.

Journal Rank:

JCR - Q2 (Metallurgy and Metallurgical Engineering) /
CiteScore - Q1 (Condensed Matter Physics)
