

Special Issue

Friction, Wear and Surface Engineering of Materials

Message from the Guest Editor

Tribology plays a vital role across many industries and applications where surfaces interact in relative motion, improving the efficiency, reliability, performance, energy efficiency, safety, and sustainability of modern products and systems. As measurement technologies and analytical tools continue to evolve, there is a growing opportunity to deepen our understanding of surface interactions and develop materials and solutions with enhanced performance. We welcome high-quality contributions that offer novel insights or practical advancements in this field. We hope that this Special Issue will advance our understanding of friction, wear, and surface engineering of materials and serve as an important platform for this vital scientific discussion.

Guest Editor

Dr. Andrzej Dzierwa

Department of Manufacturing Processes and Production Engineering,
Faculty of Mechanical Engineering, Rzeszow University of Technology,
Powstancow Warszawy 8, 35-959 Rzeszow, Poland

Deadline for manuscript submissions

20 January 2026

About the Journal

Message from the Editor-in-Chief

Materials (ISSN 1996-1944) was launched in 2008. The journal covers twenty-five comprehensive topics: biomaterials, energy materials, advanced composites, advanced materials characterization, porous materials, manufacturing processes and systems, advanced nanomaterials and nanotechnology, smart materials, thin films and interfaces, catalytic materials, carbon materials, materials chemistry, materials physics, optics and photonics, corrosion, construction and building materials, materials simulation and design, electronic materials, advanced and functional ceramics and glasses, metals and alloys, soft matter, polymeric materials, quantum materials, mechanics of materials, green materials, general. *Materials* provides a unique opportunity to contribute high quality articles and to take advantage of its large readership.

Editor-in-Chief

Prof. Dr. Maryam Tabrizian

1. Department of Biomedical Engineering, Faculty of Medicine and Health Sciences, McGill University, Montreal, QC H3A 2B6, Canada
2. Faculty of Dentistry and Oral Health Sciences, McGill University, 3640 Rue University, Montreal, QC H3A 0C7, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Ei Compendex, CaPlus / SciFinder, Inspec, Astrophysics Data System, and other databases.

Journal Rank:

JCR - Q2 (Metallurgy and Metallurgical Engineering) /
CiteScore - Q1 (Condensed Matter Physics)
