

Special Issue

Acousto-Optical Spectral Technologies

Message from the Guest Editors

It is our pleasure to invite you to submit a manuscript for this Special Issue. Full papers, communications, and reviews are all welcome. In this Special Issue, modern trends of acousto-optical spectral technologies, including the fundamentals and optimization of existing techniques, are highlighted and discussed. This Special Issue will deal with research including but not restricted to the following:

- Acousto-optic materials and structures for UV, visible, IR, and THz ranges;
- Theoretical and experimental studies of light diffraction by ultrasonic waves;
- Acousto-optic and photoacoustic spectroscopy;
- Spectral imaging and tomography;
- Multispectral and hyperspectral acousto-optic imagers;
- Acousto-optic image and signal processing;
- Acousto-optic interference techniques;
- Novel applications in remote sensing, biomedicine, and industry.

This Special Issue also provides a forum for reports on technical developments that allow the spectral analysis of various objects. The goal of this Issue is to give readers an overview of the hot topics and the state of the art regarding the applications of acousto-optic spectroscopy techniques.

Guest Editors

Dr. Alexander S. Machikhin

Laboratory of Acousto-Optic Spectroscopy, Scientific and Technological Center of Unique Instrumentation, Russian Academy of Sciences, 117342 Moscow, Russia

Prof. Dr. Vitold Pozhar

About the Journal

Message from the Editor-in-Chief

Materials (ISSN 1996-1944) was launched in 2008. The journal covers twenty-five comprehensive topics: biomaterials, energy materials, advanced composites, advanced materials characterization, porous materials, manufacturing processes and systems, advanced nanomaterials and nanotechnology, smart materials, thin films and interfaces, catalytic materials, carbon materials, materials chemistry, materials physics, optics and photonics, corrosion, construction and building materials, materials simulation and design, electronic materials, advanced and functional ceramics and glasses, metals and alloys, soft matter, polymeric materials, quantum materials, mechanics of materials, green materials, general. *Materials* provides a unique opportunity to contribute high quality articles and to take advantage of its large readership.

Editor-in-Chief

Prof. Dr. Maryam Tabrizian

1. Department of Biomedical Engineering, Faculty of Medicine and Health Sciences, McGill University, Montreal, QC H3A 2B6, Canada
2. Faculty of Dentistry and Oral Health Sciences, McGill University, 3640 Rue University, Montreal, QC H3A 0C7, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Ei Compendex, CaPlus / SciFinder, Inspec, Astrophysics Data System, and other databases.

Journal Rank:

JCR - Q2 (Metallurgy and Metallurgical Engineering) /
CiteScore - Q1 (Condensed Matter Physics)
