

Special Issue

Advances in Periodontics and Restorative Dental Materials

Message from the Guest Editors

The Special Issue aims to bring together articles covering relevant scientific topics on periodontal disease diagnosis, pathogenesis, and advances in therapy. Moreover, the opportunity will be taken to discuss the state-of-the-art research on materials that could be used in restorative dentistry and endodontics with a positive influence on periodontal conditions. To this end, the methods, requested devices, and processing of materials could be high-tech and key to developing high-quality competitive products also going beyond these specific topics. This Special Issue will consider the foundation of technical progress in periodontology and dentistry, the development of novel diagnostic and therapeutic possibilities, and the production of novel materials in creating new designs for instruments and precision machinery as well as in developing technologies and systems.

Guest Editors

Prof. Carlo Bertoldi

Dr. Luigi Generali

Dr. Stefania Bergamini

About the Journal

Message from the Editor-in-Chief

Materials (ISSN 1996-1944) was launched in 2008. The journal covers twenty-five comprehensive topics: biomaterials, energy materials, advanced composites, advanced materials characterization, porous materials, manufacturing processes and systems, advanced nanomaterials and nanotechnology, smart materials, thin films and interfaces, catalytic materials, carbon materials, materials chemistry, materials physics, optics and photonics, corrosion, construction and building materials, materials simulation and design, electronic materials, advanced and functional ceramics and glasses, metals and alloys, soft matter, polymeric materials, quantum materials, mechanics of materials, green materials, general. *Materials* provides a unique opportunity to contribute high quality articles and to take advantage of its large readership.

Editor-in-Chief

Prof. Dr. Maryam Tabrizian

1. Department of Biomedical Engineering, Faculty of Medicine and Health Sciences, McGill University, Montreal, QC H3A 2B6, Canada
2. Faculty of Dentistry and Oral Health Sciences, McGill University, 3640 Rue University, Montreal, QC H3A 0C7, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Ei Compendex, CaPlus / SciFinder, Inspec, Astrophysics Data System, and other databases.

Journal Rank:

JCR - Q2 (Metallurgy and Metallurgical Engineering) /
CiteScore - Q1 (Condensed Matter Physics)
