

Special Issue

Manufacturing Technology: Materials, Innovations and Applications, Second Edition

Message from the Guest Editors

This Special Issue is a platform for the exchange of the knowledge and experience of scientists related to innovations in the field of manufacturing technology and the development of subtractive, additive, and hybrid machining processes, circular economy, and sustainable production. The scope of this Special Issue includes, among others, the following research topics:

- Supervision and monitoring of subtractive, additive, and hybrid machining processes;
- Simulation, prediction, and optimisation of manufacturing processes;
- Development of machining tools and machining devices;
- Application of digitisation and virtualisation methods, as well as artificial intelligence methods in product design and manufacturing processes;
- Innovations in automation and human-machine interfaces;
- Eco-design, eco-manufacturing, and sustainable production;
- Recycling, waste management, and circular economy in manufacturing processes.

Guest Editors

Prof. Dr. Dariusz Lipiński

Prof. Dr. Mariusz Deja

Prof. Dr. George-Christopher Vosniakos

Prof. Dr. Wojciech Kacalak

Prof. Dr. Mirosław Pajor

Prof. Dr. Błażej Bałasz

Deadline for manuscript submissions

31 December 2025

About the Journal

Message from the Editor-in-Chief

Materials (ISSN 1996-1944) was launched in 2008. The journal covers twenty-five comprehensive topics: biomaterials, energy materials, advanced composites, advanced materials characterization, porous materials, manufacturing processes and systems, advanced nanomaterials and nanotechnology, smart materials, thin films and interfaces, catalytic materials, carbon materials, materials chemistry, materials physics, optics and photonics, corrosion, construction and building materials, materials simulation and design, electronic materials, advanced and functional ceramics and glasses, metals and alloys, soft matter, polymeric materials, quantum materials, mechanics of materials, green materials, general. *Materials* provides a unique opportunity to contribute high quality articles and to take advantage of its large readership.

Editor-in-Chief

Prof. Dr. Maryam Tabrizian

1. Department of Biomedical Engineering, Faculty of Medicine and Health Sciences, McGill University, Montreal, QC H3A 2B6, Canada
2. Faculty of Dentistry and Oral Health Sciences, McGill University, 3640 Rue University, Montreal, QC H3A 0C7, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Ei Compendex, CaPlus / SciFinder, Inspec, Astrophysics Data System, and other databases.

Journal Rank:

JCR - Q2 (Metallurgy and Metallurgical Engineering) /
CiteScore - Q1 (Condensed Matter Physics)
