

## Special Issue

# Application of Advanced Electron Microscopy in Materials Science

### Message from the Guest Editor

The journal *Materials* invites submissions to the Special Issue “Applications of Advanced Electron Microscopy in Materials Science”. This includes original work in the areas of advanced electron microscopy, where the specific areas of interest include new microscopy techniques and applications. The Special Issue also welcomes contributions from a wide range of disciplines, including nanostructured materials, catalysts, magnetic nanoparticles, 3D tomography, in situ electron microscopy and cryo-electron microscopy (in infectious disease, structural biology drug discovery and neurodegenerative disease research). Moreover, the Special Issue welcomes new methodological developments and up-to-date reviews of the state-of-the-art classification tools with interesting applications. All submissions must contain original unpublished work that is not under consideration for publication elsewhere and must follow the submission guidelines given on the journal’s homepage. Submissions will be refereed according to the standard procedures for the journal *Materials*.

---

### Guest Editor

Dr. Ioannis Tsiaoussis

Department of Solid State Physics, School of Physics, Faculty of Sciences, Aristotle University Of Thessaloniki, 54124 Thessaloniki, Greece

---

### Deadline for manuscript submissions

closed (20 June 2023)

## About the Journal

### Message from the Editorial Board

*Materials* (ISSN 1996-1944) was launched in 2008. The journal covers twenty-five comprehensive topics: biomaterials, energy materials, advanced composites, advanced materials characterization, porous materials, manufacturing processes and systems, advanced nanomaterials and nanotechnology, smart materials, thin films and interfaces, catalytic materials, carbon materials, materials chemistry, materials physics, optics and photonics, corrosion, construction and building materials, materials simulation and design, electronic materials, advanced and functional ceramics and glasses, metals and alloys, soft matter, polymeric materials, quantum materials, mechanics of materials, green materials, general. *Materials* provides a unique opportunity to contribute high quality articles and to take advantage of its large readership.

### Editors-in-Chief

Prof. Dr. Maryam Tabrizian

1. Department of Biomedical Engineering, Faculty of Medicine and Health Sciences, McGill University, Montreal, QC H3A 2B6, Canada
2. Faculty of Dentistry and Oral Health Sciences, McGill University, 3640 Rue University, Montreal, QC H3A 0C7, Canada

Prof. Dr. Yuguang Ma

State Key Laboratory of Luminescent Materials and Devices, South China University of Technology, Guangzhou 510640, China

---

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Ei Compendex, CaPlus / SciFinder, Inspec, Astrophysics Data System, and other databases.

#### Journal Rank:

JCR - Q2 (Metallurgy and Metallurgical Engineering) /  
CiteScore - Q1 (Condensed Matter Physics)
