

Special Issue

Advanced Materials for Pavement and Road Infrastructure

Message from the Guest Editors

This Special Issue of *Materials* (MDPI), entitled 'Advanced Materials for Pavement and Road Infrastructure', aims to provide researchers and scientists with a unique and rewarding opportunity to present new and emerging ideas related to this important topic. With the rapid evolution of technologies and the increasing complexity of the technical challenges associated with pavement and road infrastructure, this Special Issue comes at a pivotal time. Researchers and scientists in the relevant fields are therefore invited to submit original contributions related to topics including, but not limited to, innovative or high-performance materials for pavement systems, sustainability, resilience and recycling, emerging or smart materials and technologies, and methods for the advanced design and optimization of road materials.

Guest Editors

Dr. Jean Pascal Bilodeau

Department of Civil and Water Engineering, Université Laval, Laval, QC, Canada

Dr. Junyan Yi

School of Transportation Science and Engineering, Harbin Institute of Technology, Harbin, China

Deadline for manuscript submissions

20 August 2026

About the Journal

Message from the Editorial Board

Materials (ISSN 1996-1944) was launched in 2008. The journal covers twenty-five comprehensive topics: biomaterials, energy materials, advanced composites, advanced materials characterization, porous materials, manufacturing processes and systems, advanced nanomaterials and nanotechnology, smart materials, thin films and interfaces, catalytic materials, carbon materials, materials chemistry, materials physics, optics and photonics, corrosion, construction and building materials, materials simulation and design, electronic materials, advanced and functional ceramics and glasses, metals and alloys, soft matter, polymeric materials, quantum materials, mechanics of materials, green materials, general. *Materials* provides a unique opportunity to contribute high quality articles and to take advantage of its large readership.

Editors-in-Chief

Prof. Dr. Maryam Tabrizian

1. Department of Biomedical Engineering, Faculty of Medicine and Health Sciences, McGill University, Montreal, QC H3A 2B6, Canada
2. Faculty of Dentistry and Oral Health Sciences, McGill University, 3640 Rue University, Montreal, QC H3A 0C7, Canada

Prof. Dr. Yuguang Ma

State Key Laboratory of Luminescent Materials and Devices, South China University of Technology, Guangzhou 510640, China

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Ei Compendex, CaPlus / SciFinder, Inspec, Astrophysics Data System, and other databases.

Journal Rank:

JCR - Q2 (Metallurgy and Metallurgical Engineering) /
CiteScore - Q1 (Condensed Matter Physics)
