

Special Issue

Domain and Structural Engineering of Ferroelectric Thin Films

Message from the Guest Editor

We are pleased to invite you to submit your research papers to this Special Issue, entitled “Domain and Structural Engineering of Ferroelectric Thin Films”, which will be published in *Materials*. Ferroelectric thin films have been widely researched for various applications such as non-volatile random access memories, actuators, sensors, waveguides, piezoelectric power generators, solar cells, flexible devices, etc. Domain and structure engineering of ferroelectric thin films is one of main issues to enhance physical properties, as well as device efficiencies, related to ferroelectric thin films. If you have any questions, please do not hesitate to contact me.

Guest Editor

Prof. Dr. Jong Yeog Son

Department of Applied Physics and Institute of Natural Science, Kyung Hee University, Yongin-si, Korea

Deadline for manuscript submissions

closed (30 November 2020)

About the Journal

Message from the Editor-in-Chief

Materials (ISSN 1996-1944) was launched in 2008. The journal covers twenty-five comprehensive topics: biomaterials, energy materials, advanced composites, advanced materials characterization, porous materials, manufacturing processes and systems, advanced nanomaterials and nanotechnology, smart materials, thin films and interfaces, catalytic materials, carbon materials, materials chemistry, materials physics, optics and photonics, corrosion, construction and building materials, materials simulation and design, electronic materials, advanced and functional ceramics and glasses, metals and alloys, soft matter, polymeric materials, quantum materials, mechanics of materials, green materials, general. *Materials* provides a unique opportunity to contribute high quality articles and to take advantage of its large readership.

Editor-in-Chief

Prof. Dr. Maryam Tabrizian

1. Department of Biomedical Engineering, Faculty of Medicine and Health Sciences, McGill University, Montreal, QC H3A 2B6, Canada
2. Faculty of Dentistry and Oral Health Sciences, McGill University, 3640 Rue University, Montreal, QC H3A 0C7, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Ei Compendex, CaPlus / SciFinder, Inspec, Astrophysics Data System, and other databases.

Journal Rank:

JCR - Q2 (Metallurgy and Metallurgical Engineering) /
CiteScore - Q1 (Condensed Matter Physics)
