

## Special Issue

# Advanced Manufacturing, Design, and Function of Biomaterials

### Message from the Guest Editors

In this Special Issue, original research articles and reviews are welcome. Research areas may include (but are not limited to) the following:

- New biomedical materials and manufacturing techniques;
- Design and processing of biofunctional biomaterials;
- Biocompatibility and biofunctionality evaluation;
- Computational simulation in biomaterials and tissue engineering;
- Biomaterials manufacturing and clinic applications.

The scope of this Special Issue is based on one of the Symposiums at the 30th International Conference on Computational & Experimental Engineering and Sciences (ICCES2024)—"Advanced Manufacturing and Application of Biomedical and Biomimetic Metals". For more information about the event, please visit the following link: <https://www.iccesconf.org/symposium/>. Nevertheless, we encourage all scholars, including those who did not attend the conference, to submit their papers to this Special Issue. We look forward to receiving your contributions.

## About the Journal

### Message from the Editor-in-Chief

*Materials* (ISSN 1996-1944) was launched in 2008. The journal covers twenty-five comprehensive topics: biomaterials, energy materials, advanced composites, advanced materials characterization, porous materials, manufacturing processes and systems, advanced nanomaterials and nanotechnology, smart materials, thin films and interfaces, catalytic materials, carbon materials, materials chemistry, materials physics, optics and photonics, corrosion, construction and building materials, materials simulation and design, electronic materials, advanced and functional ceramics and glasses, metals and alloys, soft matter, polymeric materials, quantum materials, mechanics of materials, green materials, general. *Materials* provides a unique opportunity to contribute high quality articles and to take advantage of its large readership.

---

### Editor-in-Chief

Prof. Dr. Maryam Tabrizian

1. Department of Biomedical Engineering, Faculty of Medicine and Health Sciences, McGill University, Montreal, QC H3A 2B6, Canada
2. Faculty of Dentistry and Oral Health Sciences, McGill University, 3640 Rue University, Montreal, QC H3A 0C7, Canada

---

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Ei Compendex, CaPlus / SciFinder, Inspec, Astrophysics Data System, and other databases.

#### Journal Rank:

JCR - Q2 (Metallurgy and Metallurgical Engineering) /  
CiteScore - Q1 (Condensed Matter Physics)
